

Rockspec Specification Toolkit

Up-to-date BIM Objects for your projects

Professionals in the building industry are constantly looking for speed and easy access to information that they need for their projects, while still having multiple choices of products and systems in their specifications.

ROCKWOOL Rockspec brings with it exactly this set of solutions – and at no costs at all.

Rockspec enables you to find and select different options of products and systems based on your

project's technical specification requirements. It brings together the extensive consulting skills and experience of ROCKWOOL in the field of insulation into one comprehensive, easy to use toolkit.

Whether you just want to select a product or a system or making a final selection of multiple systems, Rockspec toolkit provides you with the complete documentation, downloadable for your project specification submission.

Rockspec Toolkit is for everyone

Rockspec is so simple and easy to use – it can benefit everyone who is doing building construction and management. The tool allows you to select product or system based on various requirements such as Thermal Transmittance (U-Value), Sound Transmission Class (STC), different approvals type like Factory Mutual (FM), UL, Green Building, or EUCB, system thickness and others.

A wide range of general building application like internal and external wall, under deck and over deck roofing system, ceiling system, are covered in this tool. Rockspec is also able to filter the systems into building types such as hotels or schools and into occupancy types such as sleeping area or conference room.

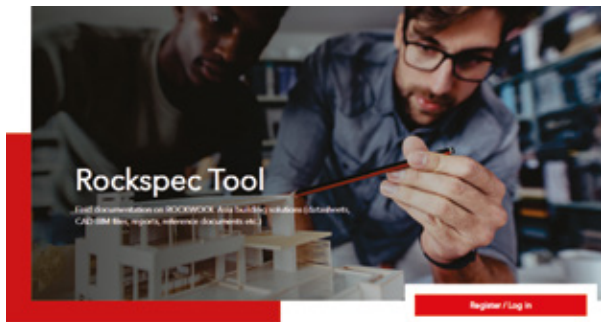

Only ROCKWOOL Rockspec can offer a complete solution in its toolkit:

- Both products and building elements information (such as for walls, roofs, ceilings, etc.)
- Systems covered under this tool includes:
 - Internal wall
 - External wall
 - Sandwich panel wall
 - Single skin roofing
 - Double skin roofing
 - Flat roof
 - Sandwich panel roof
 - Ceiling
- System Information on:
 - Weight of product, thickness of system, system description
 - Material Specification
 - STC report, U-Value report, Auto Cad drawing, BIM models
 - Product data sheet
 - System configuration
 - Installation and workmanship
 - MSDS, Handling and Storage, Sustainability fact sheet, FAQ
 - Certification
- More than 300 system variants
- More than 400 Auto-Cad drawings
- Pick and choose multiple systems for a single project and have the ability to download those information

TOOLS AND DATA INFORMATION

It's our policy to create accurate tools to assist in the specification of your project. Whilst we make every effort to ensure the accuracy and completeness of the advice given, the calculator you receive is based on the information you have provided to ROCKWOOL, or on your behalf, and therefore shall be used for general information only.

As ROCKWOOL does not have a complete insight in, and control over, the correctness of the input data provided, the calculations are theoretical and should not be relied upon for any specific application without independent verification by the project's engineer or architect, or another party acting in similar capacity.

ROCKWOOL has provided this guidance in good faith and cannot be held responsible for any omissions, changes in regulations or deviations from building practices. By using these tools you agree for ROCKWOOL to process and store the data you provide for the purpose of providing technical guidance.

You can unsubscribe from marketing at any time, simply visit your account and uncheck your preferences - our system will be immediately updated. Your privacy is important to us, you can learn more about how we use and store your data, by reading our privacy policy on our website.

To continue receiving our updates, we kindly ask you to confirm the following by clicking the "Register" button:

You'll be able to get updates from ROCKWOOL Building Materials (Singapore) Pte Ltd on ROCKWOOL Group benefits, products & services. You may unsubscribe at any time using the unsubscribe link in rockwoolasia.com website. At any time, you have the right to object to the processing of your personal data for direct marketing purposes by contacting us.

ROCKWOOL Building Materials (Singapore) Pte Ltd is committed to safeguarding your privacy on-line. Please read our Privacy Statement from this link for more information.

Fields marked with * must be completed

Register

Step 3

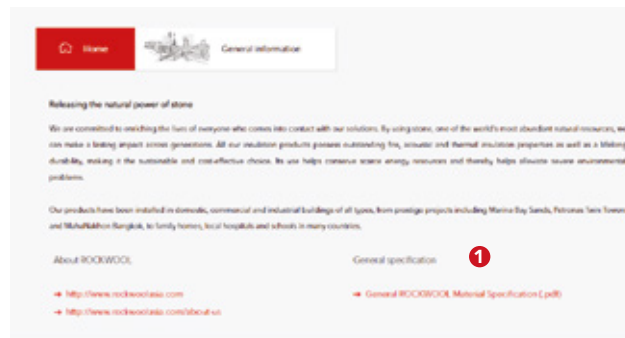

Select the product and system as per your project requirements based on three search categories: General information, Product selector or System selector

Step 4a

General Information

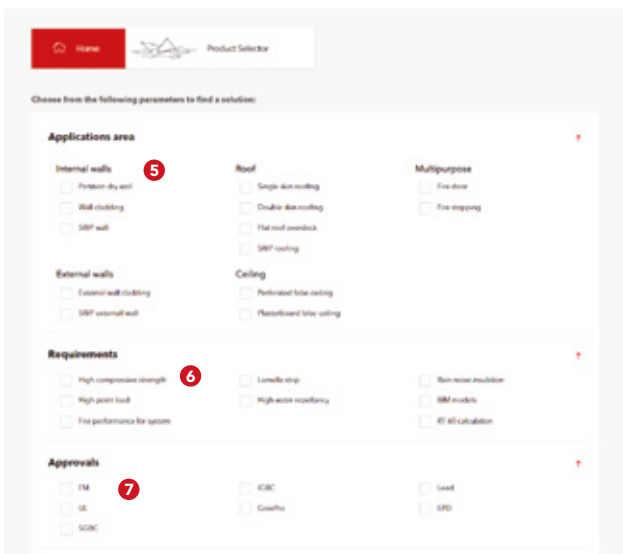

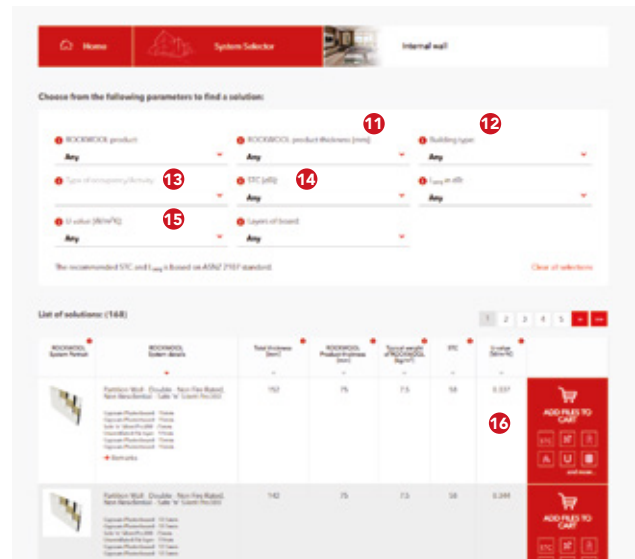

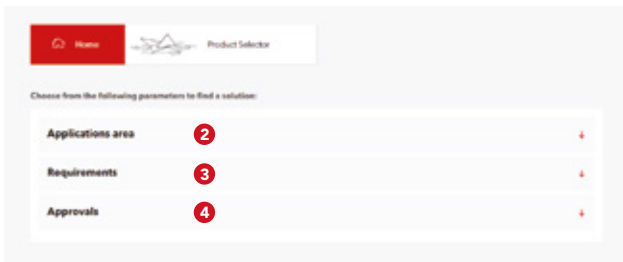

- General information about ROCKWOOL ROCKWOOL stone wool master specification is available in section System selector 1

Step 4b

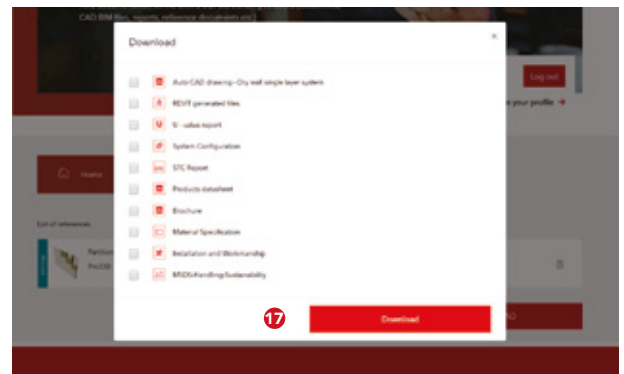

Product Selector

- Search Products by Application area 2, Requirements 3 or Approvals 4
- Application area section 5 covers Internal walls, Roof, External walls, Ceiling and Multipurpose
- Requirements section 6 covers different requirements like High compressive strength, High water repellency, Rain noise, Fire performance and others
- Approval section 7 covers requirements like FM, UL, LEED, EPD, Green Building and others
- Relevant product information and data sheets are also available based on your selection.

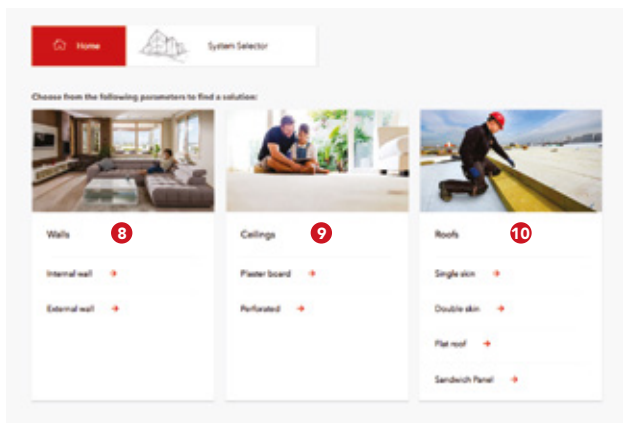

Step 5 Download and save

- Give a name to your project and download all the information (17) as needed.
- Downloadable documents includes U-Value report, STC report, Auto-CAD drawing, Material specification, System configuration, Installation and workmanship, etc.

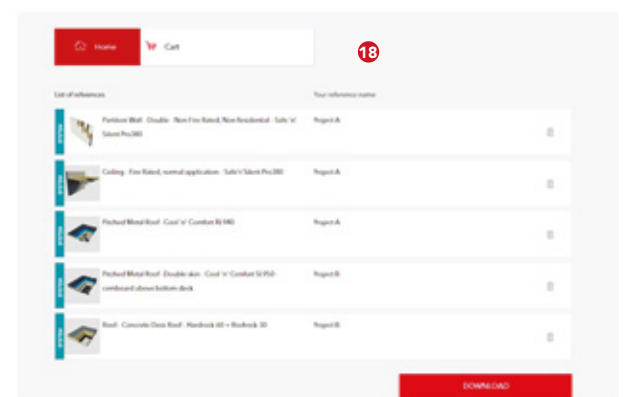

Step 4c System Selector

- Search for the appropriate Walls (8), Ceilings (9) or Roofing (10) systems
- Select the systems based on ROCKWOOL product (11), Building type (12), Type of occupancy (13), STC requirement (14) or U-Value requirement (15)
- Add to Cart (16) in order to view and download the document

- Multiple systems can be added under a single project (18) by adding them into the Cart.

All products and systems are now
at your fingertips!
